

DAGGERHEART

START HERE DIRECTIONS

THESE MATERIALS ARE FROM **MARCH 12, 2024**. BEFORE STARTING EACH SESSION, WE RECOMMEND CHECKING TO SEE IF THERE ARE ANY UPDATES.

Welcome to the Daggerheart Open Beta Playtest! Gathered here, you'll find all the materials needed to start playing your own game.

The **QuickStart Adventure** is a great place to begin! We've built it to streamline play for those who are learning Daggerheart. It includes a 3-hour adventure, a walkthrough of core rules, and 5 pre-generated characters!

For GMs, we have a folder just for you. Within it, you can find all of the sheets you'll want to reference for character creation, campaign maps to start your adventure, and a folder with every card in the game! (If you're playing in person, don't forget to print the Action Tracker card. All other cards can also be found in the Player Materials.)

For Players, there is a folder for each class that contains all of the print and play materials you will need to begin making a character. There are instructions on Page 1 that explain how to print materials ranging from Level 1 to Level 10, including all of the cards, sheets, and tables you will need!
